Our clients will be those soldiers and service personnel who have returned from recent wars.

**Medical:** Medical attention is a first priority. We want our clients to get the care they deserve.

**Education:** An education and career center which will focus on each client's future goal.

**Opportunity:** Clients may be able to borrow from the Center and use available grant monies in an approved business venture.

**Employment:** USSAC counsels clients to determine their skills to facilitate placement in a career path.

**Housing:** USSAC will provide clients housing for the clients who do not have family and are homeless.

**Family Support:** Family Support and Counseling System, group interaction, Unity

United States Soldiers Assistance Center, USSAC, is a place of hope for millions of heroes returning from war and facing life's challenges. These heroes are vulnerable and we are here to help them, to assist them and accompany them into their new start and journey in life.

Our support includes financial, career assistance, education, medical, and help with emotional and spiritual healing. We want to help our heroes get back on their feet, and ensure their success. They deserve it.

There heroes have sacrificed their lives so we can live freely and without fear. We owe them our appreciation and help.

We are a non-profit organization dedicated to helping people get a leg up, not only soldiers, but all types of Americans from all different walks of life.

We can't do it alone. We need help from you. Don't you think that soldiers risking their lives for your freedom is worth a small donation? If you want to help, please donate to USSAC.
